1.0 Overview

The Department of Homeland Security (DHS) Science and Technology (S&T) Directorate is the primary research and development component of DHS. It has several research opportunities throughout the year on a broad range of topics. These opportunities are managed by the Broad Agency Announcement (BAA) program. In addition, DHS S&T provides research opportunities with the Small Business Innovation Research (SBIR) program.

The Public Portals for BAA and SBIR are secure, web-based, end-to-end proposal management systems to support the S&T BAA and SBIR proposal and award processes—from proposal submission and evaluation to contract award and administration.

This manual provides vendors with step-by-step instructions for registering their companies and submitting proposals for BAA- and/or SBIR-related opportunities.

2.0 Registration

Before submitting a white paper or proposal for the first time, you must first register your company/organization in the system.

After the company/organization is registered, new users must register by associating their information with the company/organization's existing record.

When registration is complete, users can submit and manage white papers and proposals.

2.1 Access the Log In/Registration Page

2.2.1 Generate an ID in Lieu of a TIN (optional)

The Taxpayer Identification Number (TIN) is a nine character number required by the IRS when reporting income tax and other returns. If your company/organization does not have a TIN or is not required to have a TIN, you may generate an identification number (ID) to use in lieu of a TIN.

Important information about the ID:

- You must not use this ID for IRS purposes.
- Make sure your company/organization generates only one ID.
- If you are not sure whether your company already has an ID, contact your company/organization point of contact (POC).
- If you have generated an ID, please let your company/organization POC know.
- If your company/organization establishes a TIN after registering in this system with an ID, call the Technical Support to update the TIN information.
- 1. Complete all steps in the "Access the Log In/Registration Page" chapter of this manual.
- 2. From the Registration page, click the *Generate Temporary TIN* link (outlined in the example below).

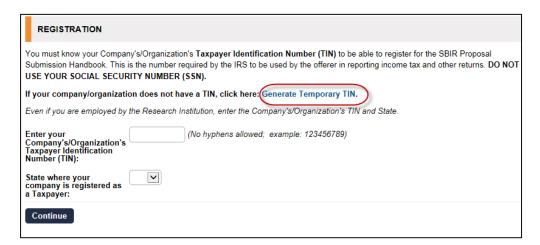

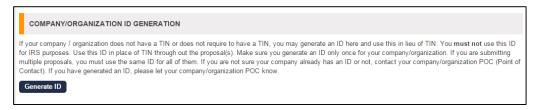

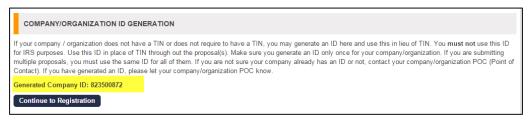

Figure 5: Example of the TIN registration page

3. The following page displays; click on Generate ID

- 7. In the next field, select the state in which your company pays taxes.

If your organization is located outside of the United States, select the *Check here if Outside of United States* check box (applicable to BAA).

For example, register "University of XYZ" instead of "University of XYZ - Biology Department," or "ACME Co." instead of "ACME Co. - Explosives Division." At a later time, when you submit your white paper/full proposal, you can edit the information to reflect your specific department/division identification.

Note that required fields are marked with an asterisk. Additional guidance about each field is provided on the far right side of the form.

If you are a new user whose company has already been registered, the Company Information and Point of Contact Information sections will automatically be populated. Proceed to the User Information section.
